

Yes, you can.™

Until the Invacare® Power 9000™ power chair, the typical economy chair provided only the basics. But the Invacare Power 9000 combines economy with style. Function with features. Utility with performance. It offers everything discriminating consumers are looking for in a power chair, at an affordable price, including the clean, sleek styling characteristic of the Storm Series® and a quiet, efficient, reliable drive. For smooth response, we offer the MKIV™-RII electronic control system. Couple these features with options, colors, and simple transportability, and it's easy to see how we're breaking the rules of the economy chair class.

## Highlights

- MKIV-RII control system
- Separate, easy-to-remove battery boxes\*
- Model range includes 14", 16", 18", and 20" widths

\* Batteries not included.

Location of MKIV-RII module

Folded with MKIV-RII

Components disassemble for easy transport

## Transportability

The Invacare® Power 9000™ was designed to fold and disassemble into manageable components. The electronic system does not require disassembly from the frame, greatly simplifying the disassembly process.

## Weight Chart

Chair Weight with MKIV-RII*	77 lb.
22NF Battery** and box	40 lb. each
UI Battery** and box	25 lb. each
Battery Tray	6 lb.

Full Turning Radius	35"

All specifications are approximate.

\* Base at 16" seat depth and P93 front rigging.

The Invacare Power 9000 is excellent indoors and good over outdoor surfaces that are firm and free of obstacles. For heavy-duty use, or for rugged terrain, consider Invacare's more heavy-duty models such as the Invacare Arrow®, Ranger X™, Torque™, or Ranger II™ chairs. Consult your health care professional to optimize product selection. Meets requirements of Medicare K0012 code.
